

TALHA REHMAN

Full-Stack Software Engineer (MERN / PERN)

Islamabad, Pakistan | +92 334 9805663 | talharehmankht@gmail.com

[Portfolio](#) | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Full-stack software engineer with 1.5+ years of experience building and maintaining production web applications using React.js, Node.js, Express.js, MongoDB, and PostgreSQL. Currently maintain live client projects at **LiveTalk** and previously delivered three internal products at **Brandora**, including a company website, an attendance and task-tracking system, and an office game application. Built an AI-integrated pharmacy management system as a Final Year Project, combining CRUD inventory management with an LLM-powered (Gemini API) recommendation and guidance engine. Comfortable owning features end to end — from REST API design to responsive UI to deployment — within Agile teams. Actively expanding into agentic AI and LLM-integrated tooling. Available immediately; open to onsite, remote, and hybrid roles.

TECHNICAL SKILLS

- Languages: JavaScript (ES6+), Python, C++
- Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap
- Backend: Node.js, Express.js, REST API Design
- Databases: MongoDB (Mongoose), PostgreSQL, Supabase
- Tools & Platforms: Git, GitHub, Postman, Vercel
- Core Concepts: Full-Stack Development, Authentication & Authorization, CRUD Systems, API Integration, Responsive Design, Agile Development, Debugging & Production Support
- AI & Emerging Tech: LLM Integration (Gemini API), AI Chatbots, Prompt Engineering, Agentic AI (in progress)

PROFESSIONAL EXPERIENCE

Junior Software Engineer — LiveTalk, Pakistan (Contract, Part-Time) *Oct 2024 – Present*

- Maintain and enhance multiple live production web applications using React.js, Node.js, Express.js, MongoDB, and PostgreSQL.
- Design and build scalable REST API endpoints supporting user management, business workflows, and core application data.
- Build responsive, production-ready React interfaces used directly by end clients.
- Debug and resolve production issues across the stack, improving application stability and performance in an ongoing basis.
- Collaborate with senior developers in an Agile workflow, from feature planning through deployment.

Full-Stack Developer (Internship) — Brandora, Pakistan *Apr 2024 – Oct 2024*

- Delivered three full-stack MERN products from the ground up over a 6-month internship.
- Built Brandora's official corporate website end to end, from frontend UI through backend integration and deployment.
- Designed and developed an Attendance and Task Tracking System used internally by staff to log attendance and manage day-to-day task assignments.
- Built "ChorPolice" — an interactive employee engagement web game — implementing game logic and a responsive, multiplayer-friendly UI to boost office engagement.
- Worked directly with senior engineers to follow production-quality coding and review practices.

PROJECTS

AI-Integrated Pharmacy Management System — Final Year Project — *React, Node.js, Express.js, MongoDB, Gemini API*

- Built a complete pharmacy management platform with full CRUD inventory management, expiry tracking, and automated reminders.
- Integrated an AI-powered medicine price prediction feature using the Gemini API to present costs in a clear, human-readable format.
- Developed an intelligent alternative-medicine recommendation engine and a prescription guidance module that converts prescriptions into personalized medication schedules.

QuickGPT — *React.js, AI APIs*

- Built an AI-powered chatbot client demonstrating LLM integration and modern frontend architecture.
- Live Demo: quick-gpt-client-azure.vercel.app/

Grocify — *React.js, Node.js, MongoDB*

- Built a full-stack grocery ordering application covering product browsing, cart, and order workflows.
- Live Demo: grocify-one-rho.vercel.app/

Shop-It — *React.js, Node.js, MongoDB*

- Built a complete e-commerce application with authentication, shopping cart, and product management.
- Code: github.com/TalhaRehman-KHT/SHOP-IT

Yoga Studio — *React.js*

- Designed and built a responsive business website with a modern UI/UX for a yoga studio.
- Live Demo: yoga-cyan-gamma.vercel.app/

All projects: github.com/TalhaRehman-KHT

EDUCATION

Bachelor of Science in Computer Science (BSCS)

Kohat University of Science and Technology (KUST) | 2022 – 2026 | CGPA: 3.20 / 4.0

ADDITIONAL INFORMATION

- Available immediately for onsite, remote, or hybrid roles
- Open to relocation within Pakistan or abroad
